Dear FCC:

I do indeed benefit from listening to XM Satellite Radio and its traffic and weather channels, when I am traveling from my residence to Philadelphia or Allentown on business several times a week. I also enjoy listening to XM Satellite Radio in my home, with the variety and quality they provide, that is not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge you, the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.

I am, respectfully yours,
DAVID BAUM
